Software Engineer with **3+ years of hands-on experience** in software development, and **1+ year of industry experience** in web development. Skilled in full-stack development using **JavaScript**, **React.js**, and **Node.js**, with a focus on writing clean, maintainable code, API development and integration, CI/CD, debugging, version control, performance optimization, and agile development.

SKILLS

JavaScript, TypeScript
HTML, CSS, SCSS
Git, Github, Docker, CI/CD

React.js, Next.js
Tailwind CSS, Bootstrap
UI/UX, REST APIs

Node.js, Express.js
MongoDB, MySQL
Figma, WordPress

WORK EXPERIENCE

WEB DEVELOPER | Freelance, Remote

OCT 2025 – PRESENT

- Built and customized websites using WordPress, PHP, **JavaScript**, **HTML** & **CSS**.
- Developed 3+ complete business websites, delivering a high level of client satisfaction.
- Integrated plugins and **APIs** to extend website functionality.
- Provided website maintenance, optimizations and technical support.

WEB DEVELOPER INTERN | Avlanche, Kandy

MAR 2025 – OCT 2025

- Developed 10+ visually engaging websites using WordPress, Framer, **HTML** & **CSS**.
- Built 3+ end-to-end websites for major clients in collaboration with UI/UX designers.
- Managed and optimized 40+ websites across multiple industries.
- Assisted senior developers with custom plugin development using PHP and **JavaScript**.

FRONTEND DEVELOPER | Freelance, Fiverr

OCT 2024 – NOV 2024

- Converted UI/UX designs into interactive websites using **HTML**, **CSS**, and **JavaScript**.
- Built accessible, high-performance interfaces with modern web standards.
- Wrote clean, reusable, and maintainable code and resolved bugs.

PROJECTS

HABITZY | <https://github.com/DevHanza/habitzzy>

- Developed a habit tracking platform using **React.js**, **MongoDB**, **Node.js** & **Express.js**.
- Implemented authentication, streak system, profiles, settings, leaderboard features, etc.
- Optimized performance with React best practices such as memoization and code splitting.
- Enhanced UI/UX with optimistic updates, SPA navigation, loading spinners, and error pages.

NEXTJS-WP-BLOG | <https://github.com/DevHanza/nextjs-wordpress-blog>

- Built a headless blog website using **React.js**, **Next.js**, **Docker** and WordPress.
- Integrated **REST APIs** for dynamic content with caching & error handling.
- Developed SPA navigation, search functionality and pagination.
- Customized the WordPress REST API using PHP to expose custom post data.

CAFESY | <https://github.com/DevHanza/cafesy>

- Developed an e-commerce website using **HTML, SCSS, Node.js, Express.js & JavaScript**.
- Implemented email newsletter, notifications, contact forms, loading screens and custom animations.
- Achieved 95+ Core Web Vitals score on desktop through performance optimization.
- Integrated third-party **REST APIs** for email newsletter features.
